FOOD SAFETY TRAINING

PRE-REQUISITE PROGRAMS:
SANITATION, PEST CONTROL, AND MAINTENANCE

Pre-Requisite Programs are at the core of every facility and of every effective HACCP plan. This online course unpacks the best ways to simplify, organize, and verify Sanitation, Pest Control, and Maintenance Programs.

It teaches how to align your key Pre-Requisite Programs with your organization's needs and still meet regulatory, customer, and certification requirements.

THIS TRAINING WILL HELP YOU:

- Understand the purpose of the Sanitation, Pest Control, and Maintenance Programs and their functions.

- Know the criteria to evaluate and verify the effectiveness of each program.

- Appropriately document any food safety incidents and/or corrective actions.

- Provide proper guidelines to Sanitation, Maintenance, and Pest Management professionals so they understand the correct way to perform their tasks, and are all on the same page.

MODULE TOPICS:

- Sanitation
- Pest Control
- Maintenance
